Tips

- Good skills to invest in first are: Sex skill, Clever, Stamina and Teacher.

- You should train 1 or 2 more slave to sell at the auction in order to have a decent amount of money first before training an employee. Aim to make a more well trained slave so you can sell for much higher price at the auction.

- You should build a bathroom soon. It will can help your servant, employee to relax. And if you take your slave there, It will help her to increase her hygiene, sympathy and mind.

- Mistress cost a considerable amount of money to make (the mistress's room cost \$ 5,000). Once having a mistress, she will also require more money to maintain and be happy. However, mistress is extremely useful and can help a lot with your slaves and your whole management in general. Definitely, not recommend in early game.

- Different clothes has different boost on skills and income for slave, servant & employee jobs.

- Business centre in the city. It is a good place to buy well train slaves, servant and employee. You can also find Contract here. Each contract have a few specific requirements. This is also a very good way to earn high amount of money.
